

RELEASE NOTES

EFI™ is pleased to announce the release of Fiery® proServer for Cretaprint® 2.1. This latest release is available free of charge to all customers who have their Fiery proServer for Cretaprint covered under an EFI Software Maintenance & Support Agreement (SMSA).

Highlights:

- Printer Drivers – Support for the new EFI Cretaprint D4 printer, EFI Cretaprint M4 printer and EFI Cretaprint Soluble Salt printer series
- Printer Support – Support of the EPSON SureColor SC-P 6000/8000 and EPSON SureColor SC-P 7000/9000
- Color – New color separation strategies supporting Green ink

Printer Drivers:

- Support for the new Cretaprint D4 printer with full support for up to 12 print bars for both floor and wall tile decoration.
- Support for the new Cretaprint M4 printer model for wider print applications.
- Support for the 3 new Cretaprint Soluble Salt printers for Technical Porcelain tile production for high-transit applications.
- Support for the latest EPSON® SureColor SC-P 6000/8000 and SureColor SC-P 7000/9000 proofing devices.

Color Improvements:

- Fiery ColorWise® provides support for 3 new color separation strategies that include Green ink which provide excellent separation results with full usage of Green ink within the separations.
- The Dynamic Gamut Expansion feature now allows the white start point to be specified achieving even better enhanced effects on darker glazes.
- An update to Color Tools version 4.9 provides color enhancements for EPSON proofer users.

Productivity Improvements:

- Scan or Patch mode can now be chosen per scan line in the Fiery Calibrator tool for chart measuring reducing time when profiling for darker glazes.

Usability Improvements:

- Improved Fiery Calibrator test charts result in better readability in scan mode for print conditions that don't contain a black channel.
- Ink vendor related information is now stored centrally and selectable when needed in Fiery Calibrator when building new profiles.
- Improved profile filtering of all available Fiery proServer for Cretaprint output profiles provides easier and faster navigation and usage.

System Improvements:

- Support for macOS Sierra for the Fiery proServer for Cretaprint 2.1 client and all Mac OS X related tools.

Fiery proServer for Cretaprint 2.1 System Information:

Fiery proServer server configuration:

- EFI Fiery proServer for Cretaprint hardware, preinstalled with Windows 7 (64-bit)
