

RELEASE NOTES

EFI™ is pleased to announce the release of Fiery® proServer for Cretaprint® 3.0. This latest release is available free of charge to all customers who have their Fiery proServer for Cretaprint covered under an EFI Software Maintenance & Support Agreement (SMSA).

Highlights:

- A new separation mode which provides superior design editability
- Support for 4 new EFI Cretaprint printers:
 - EFI Cretaprint P4
 - EFI Cretaprint C4 Twin
 - EFI Cretaprint X4
 - EFI Cretaprint X4 Soluble Salt
- Support of the EPSON® SureColor SC-P5000
- Performance gains for file processing

Color Improvements:

- An additional Fiery ColorWise® color separation mode is introduced which provides superior editability even for the most complex designs.
- Support for colored and dark glazes enabling optimized proofing and separations especially for floor tile designs.
- A new Glaze Color Correction feature optimizes proofs especially for gloss tile production.
- New media profiles and calibration sets for halftone print modes for the EPSON SureColor P-Series printers are now available for EFI Cretaprint proofing medias.
- An update of Color Tools to version 4.9.4.28 provides several general improvements and bug fixes.

Productivity Improvements:

- Faster single file processing and optimized multi file processing delivers performance improvements of over 10% versus previous Fiery proServer versions.

Usability Improvements:

- Files with special effects channels can now be converted for accurate production on a different printer, whilst still maintaining the same spot channel structure, with no extra work needed to manage effects channels.
- Optimized communication between the Fiery XF Client and Fiery proServer result in a more responsive user experience.

System Improvements:

- Support for the EPSON SureColor SC-P5000 joins the existing support for the EPSON SureColor P-Series range including the P6000, 7000, 8000 and 9000.

Fiery proServer for Cretaprint 3.0 system information:

Fiery proServer server configuration:

- Fiery proServer hardware, preinstalled with Windows 7 (64-bit).

Fiery proServer client requirements:

- Windows 7/8/8.1/10 (32 & 64-bit), Mac OS X 10.8/9/10/11.

Fiery ProServer supported languages:

- English, Spanish, Simplified Chinese, German, French and Turkish.

Software Maintenance & Support Agreement (SMSA):

EFI Software Maintenance & Support Agreements (SMSA) for Fiery proServers for Cretaprint provide an ongoing stream of features, improvements and fixes plus the latest printer drivers. Fiery proServer 3.0 is available at no additional charge to all users covered under an EFI SMSA agreement. For new Fiery proServer for Cretaprint 3.0 customers, an SMSA is included for the first year after purchase.
