1. Overview

These are the release notes for Digital Factory update 11.2.1. This version contains a number of requested fixes and quality of life improvements, as well as the introduction of the UCD Auto Configure feature.

2. New features included in this release

- Added the UCD Auto Configure feature, which provides users the ability to create print modes from an easy-to-use drag and drop workflow.

3. Changes and improvements included in this release

- Added a prompt option to nest when job parts overlap.
- Improved the first-time setup process to ensure users install at least one device prior to Digital Factory opening.
- Improved windowpane customization to prevent unexpected empty spaces.
- "Generate log report" is now defaulted to off to prevent taking up unexpected storage space.
- Added a Barcode Minimum Width control to the Print Labels settings.

4. Fixes included in this release

- Plate Numbers now properly appear on jobs with multiple plates.
- Fixed an issue where users could not exit the software when a job failed due to an invalid barcode.
- Fixed an issue where the white channel would now show when using View as Black.
- Improved error message clarity when attempting to save a file with too long of a name.
- Fixed an issue where media margin and cut data misaligned on rotated cuts.
- Fixed an issue where the lock width/height button was incorrectly showing in certain circumstances.
- Fixed a crash that would occur in next-gen UI when no queue was installed.
- Fixed a crash that would occur in next-gen UI when rearranging queue tabs.
- Fixed an issue where multi-page PDF files would not import correctly if not split.
- Fixed an issue where scanning a QR code would change text to all uppercase.
- Fixed an issue where a print mode color model would not initialize properly when created via the Universal Controller Driver.
- Fixed an issue where Print Preview and View Raw Data would not work as expected with the Universal Controller Driver Plus.
- Fixed an issue where Job Notes would not print when enabled.
