    - WAN-IFRAnewspaper26v5.icc

Color

- Diluent ink support for all Reggiani textile printers, with the possibility to print diluent ink dynamically in relation to the total ink limit

- Enhanced EFI profiler to provide better gray balance for EFI printers, including improved neutrals and smoother print results

- Smoother linearization for Reggiani and VUTEk FabriVU printers

- Improved verification label report for Canon and EPSON® printers using onboard spectrophotometers; now includes measuring mode information

Availability

- Fiery XF 6.5.2 is available via the Online Updater for all configurations of Fiery proServer and Fiery XF version 6.5 and 6.5.1. Alternatively, the version 6.5.2 update can be downloaded from the EFI downloads area
http://www.efi.com/products/inkjet-printing-and-proofing/fiery-for-inkjet/fiery-xf/download/

- No new license is needed for customers who have a 6.5 license installed

- Fiery XF 6.5.2 can be installed directly on top of Fiery XF 6.5. There is no need to go to Fiery XF 6.5.1 first before installing version 6.5.2

- For customers who have not upgraded to version 6.5 yet, detailed instructions on how to upgrade and a complete list of new features, enhancements and new supported printers are available in the
6.5 Release Notes
