RELEASE NOTES

EFI™ is pleased to announce the release of Fiery® proServer and Fiery XF 7.0.4.

This latest release is free of charge for all users.

Bug fixes:

- Cutting-related fixes:
    - Fixed a Colex cutter driver issue that prevented jobs shorter than 16" from being cut correctly.
    - Fixed a Colex cutter driver issue that mistakenly would introduce a small 0.155mm gap for cuts in between jobs that were set up to have no gap at all.

- Printer-driver-related fixes:
    - Fixed the HP DesignJet 4500 HT printer driver, which previously showed an "Error during input processing".

- JobFlow-related fixes:
    - PDFs sent from Fiery JobFlow to Fiery XF will now correctly show the job title from, for example, Acrobat Reader.

- Fiery XF server-related fixes:
    - Fixed a server crash issue that was caused by footer usage.

- Nesting-related fixes:
    - Fixed an issue with automated nestings where the "Process & Hold" command was ignored, and the nesting was processed and printed instead.

- Installer-related fixes:
    - The Fiery XF updates will now show correct installation dates.

Ink changes and additions:

- Updated and new inks as shown below:
